Section 2: Applying to Study at the UEM

2.1 Eligibility

Before the exchange of ERASMUS students can take place, a Bilateral Agreement must be signed by the institutions concerned in the relevant subject area. If you are interested in applying to the UEM you should check with the Coordinator in your home university whether an agreement is in place. Please note that Bilateral Agreements will not be signed to accommodate the wishes of an individual student.

Students who wish to apply to study at the University outside a signed Bilateral Agreement must apply as non-graduating students and will be required to pay tuition fees. If you have more questions about this option please contact: ads@uem.es

2.2 Language Requirements

We have a wide offer of subjects taught in English. Nevertheless, the Universidad Europea de Madrid is a private institution which guarantees a personalized learning experience for each student. To achieve this, class groups are small and places are limited. Therefore, we cannot guarantee a place to every student who requests a particular class.

Once a class taught in English is full, we will redirect the student to that same class but in Spanish. That’s why we recommend the incoming students to have a basic level of Spanish (B2) to be able to follow classes taught in Spanish.

2.3 Application Procedures

Once we have received your nomination from your university, we will send to you by email the confirmation of acceptance and an the link for our online application form. You must fill it with all the information required and make the election of subjects that you are interested in.

You must choose the subjects and prepare your schedule with the help of your Erasmus coordinator. You will find information about subjects available and schedules in this link: https://app.uem.es/apps/MatricRRII/html/Horario.html

Once made, you should print the application form and send a copy to:
